Homework #2

Python Fundamentals

INNOVATION
MASTERS

Objective: Replicate the program output below. Also create any unique program utilizing the lessons from day one and two.

Instructions first program:

1. Create a program that will ask for inputs:
   - First Name
   - Last Name
   - Age
   - School you attend
2. Display the information in the following format:

```
/Users/bryanindelicato/PycharmProjects/InnovationMasters/
My name is Bryan Indelicato
I am 21 old
I attend Brooklyn College

Process finished with exit code 0
```

Instructions second program:

1. Create any unique program that uses the information we learned from day one and two, we will be showing our work in class on Saturday
